REASONS FOR ALLOWANCE

Claims 1-3, 6, 7, 9-11, 16-18, 21, 24-26 are allowable. Claims 4, 5, 8, 12-15, 19, 20, 23, 27-30, previously withdrawn from consideration as a result of a restriction requirement, include all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement between inventions Species A-H, as set forth in the Office action mailed on 5/4/2007, is hereby withdrawn** and claims 4, 5, 8, 12-15, 19, 20, 23, 27-30 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

The following is an examiner's statement of reasons for allowance: The subject matter of the independent claims could either not be found or was not suggested in the prior art of record.

The subject matter in independent claim 1 not found was a method of measuring fluid flow from a fluid source to a baby's mouth through a nipple, where the indicator pathway is a different length than the feeding pathway, and the amount of fluid drawn into and retained in the indicator pathway is indicative of the amount of fluid drawn into the feeding pathway, in combination with the other elements of the claim.

The subject matter in independent claim 16 not found was a device with an indicator pathway having a different length than the feeding pathway and the amount of fluid drawn into and retained in the indicator pathway is indicative of the amount of fluid drawn into the feeding pathway, configured such that the amount of fluid provided to the baby's mouth through the feeding pathway is proportional to the amount of fluid drawn into and retained in the indicator pathway, in combination with the other elements of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to LAURA C. SCHELL whose telephone number is (571)272-7881. The examiner can normally be reached on Monday-Friday 9am-5:30pm.
